**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following species which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- a. Species A: presented by figures 1 and 5
- b. Species B: presented by figure 2-4, and 6-10
- c. Species C: presented by 11-12
- d. Species D: presented by 14

2. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a). Currently, there is no generic claim as to the above species.

Art Unit: 3616

2. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

The special technical features of Species A include two torsion axle

The special technical features of Species B include two sprung axle unit, and connector reinforcement plates.

The special technical features of Species C include a sprung axle support box.

The special technical features of Species D include a circular axle support member.

Species A-D do not share a common special technical feature.

3. A telephone call was made to Mr. Michael Minns on September 9, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

### ***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Toan To whose telephone number is (703) 306-5951. The examiner can normally be reached on Monday-Friday from 8:00 AM to 5:00 PM.
